3 October 1961

MEMORANDUM FOR: Committee on Overhead Reconnaissance

SUBJECT: Determination of the Radar Type Detected in North Vietnam Area by Mission 3055

REFERENCE: Final ELINT Report of TANGO Mission 3055 (Control STCO 212-61)

1. The reference reported a radar of undetermined type in the North Vietnam area.

25X1

From the available data no determination of the type can be made without determining

25X1

2. For the information of the COMOR, the following action is being taken:

25X1

a. If another TALENT mission over North Vietnam is conducted, temporary modification will be made of the System VI receiving system to provide a frequency breakdown which will permit segregation of the suspected radar types involved.

b. If an mission is conducted in the area, tunable receivers to determine the discrete frequency will be employed.
